PROFESSIONAL SUMMARY

QA Automation Engineer with 7.6 years of overall experience, including 4.4 years of experience in manual and automation testing, across healthcare and enterprise applications. Strong expertise in Java, Selenium, TestNG, Cucumber BDD, API testing, CI/CD integration. Proven ability to design scalable automation frameworks, validate complex workflows, and ensure high-quality releases in Agile environments.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript (Intermediate), TypeScript (Intermediate)
- **Automation & Frameworks:** Selenium WebDriver, TestNG, Appium, Apache POI, Playwright (Basics)
- **API Testing:** Postman, REST Assured
- **CI/CD & Build Tools:** Jenkins, Maven, GitHub
- **Reporting:** Extent Reports, TestNG Reports, Allure Reports
- **Other Tools:** Git, Taiga
- **Methodologies:** Agile, Scrum, SDLC, STLC

PROFESSIONAL EXPERIENCE

Pacecom Technologies Pvt Ltd | Bangalore, India

Nov 2018 - Present

QA Automation Engineer – Automation & Manual Testing

Jan 2022 – Present

(Official Designation: Project Lead – Data Annotation Team)

- Automated **100+ UI test cases**, improving regression coverage and reducing manual effort by ~40%.
- Reduced **regression execution time by ~30–40%** through automation.
- Designed and implemented a **scalable automation framework** using Java and POM.
- Performed **API testing** using Postman and REST Assured for backend validation.
- Integrated automation suites with **Jenkins CI/CD** pipelines for scheduled execution.

- Prepared **test plans, RTM, and execution reports** using Extent & Allure Reports.
- Collaborated with developers and product teams in **Agile sprint ceremonies**.
- Performed **functional, regression, smoke, sanity, and UI testing** across healthcare and enterprise applications.
- Designed and executed **test scenarios and test cases** based on business requirements.
- Logged and tracked defects, ensuring **timely resolution with development teams**.
- Identified **critical defects early**, reducing production issues and improving release quality.
- Validated **end-to-end workflows, user roles, and data consistency**.

Key Project Highlights (Healthcare Domain)

Project: Healthcare Monitoring Application

(Web and Mobile-based application for patient monitoring and alert management)

- Role Mapping & Alerts: Validated multi-role workflows and abnormal vital alerts.
- Lab & Pharmacy Modules: Automated lab requests, pharmacist confirmations, and order lifecycle flows.
- Emergency Handling: Tested real-time emergency alerts, escalations, and status updates.
- Video Consultation: Validated end-to-end consultation workflows including prescriptions and reports.

Data Annotation & Leadership Experience

Project Lead | Team Lead | Reviewer | Annotator – Aptiv & Veoneer

Nov 2018 – Jan 2022

- Led and managed teams of 20+ annotators and reviewers across multiple projects.
- Defined annotation guidelines, QA processes, audits, and sampling strategies.
- Delivered 10+ large-scale projects with over 98% quality accuracy.
- Trained new team members and managed client communication and escalations.

EDUCATION

B.E. in Electronics and Communication Engineering (2016)

Sreenivasa Institute of Technology and Management Studies
