PROFESSIONAL SUMMARY

QA Automation Engineer with 7.6 years of experience, including 4.4 years in software testing (manual & automation), across healthcare and enterprise applications. Strong expertise in Java, Selenium, TestNG, API testing, CI/CD integration, and Agile delivery. Experienced in designing scalable automation frameworks, validating complex workflows, and ensuring high-quality releases for web and mobile applications.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript (Intermediate), TypeScript (Intermediate)
 - **Automation & Frameworks:** Selenium WebDriver, TestNG, Appium, Apache POI, Playwright (Basics/Certification)
 - **API Testing:** Postman, REST Assured
 - **CI/CD & Build Tools:** Jenkins, Maven, GitHub
 - **Reporting & Tools:** Extent Reports, TestNG Reports, Git, Taiga
 - **Methodologies:** Agile, Scrum, SDLC, STLC
-

PROFESSIONAL EXPERIENCE

Software Test Engineer – Automation & Manual Testing

Ashurity Healthcare Application | Bangalore, India

- Automated 100+ UI test cases for healthcare application modules using Selenium WebDriver with TestNG, improving regression coverage and execution efficiency.
- Designed and implemented a scalable automation framework using Java and Page Object Model (POM).
- Performed API testing using Postman and REST Assured to validate backend workflows, request/response data, and business rules.
- Integrated automation suites with Jenkins CI/CD pipelines and monitored scheduled regression runs.
- Prepared test plans, traceability matrices, and execution reports using Extent Reports.
- Collaborated with developers and product teams in Agile sprint ceremonies.

Key Project Highlights (Healthcare Domain)

- **Role Mapping & Alerts:** Validated multi-role workflows and abnormal vital alerts.
- **Lab & Pharmacy Modules:** Automated lab requests, pharmacist confirmations, and order lifecycle flows.
- **Emergency Handling:** Tested real-time emergency alerts, escalations, and status updates.
- **Video Consultation:** Validated end-to-end consultation workflows including prescriptions and reports.

Manual Testing Projects – Internal Enterprise Platforms MYEDUPORT
| CAMPUS2COMMUNITY | MYPORTAL

- Performed functional, regression, smoke, sanity, and UI testing.
- Prepared test scenarios and test cases from business requirements.
- Logged and tracked defects, collaborating with developers for resolution.
- Validated end-to-end workflows, user roles, and data consistency.

Data Annotation & Leadership Experience

Project Lead | Team Lead | Reviewer | Annotator – Aptiv & Veoneer

- Led and managed teams of 20+ annotators and reviewers across multiple projects.
- Defined annotation guidelines, QA processes, audits, and sampling strategies.
- Delivered 10+ large-scale projects with over 98% quality accuracy.
- Trained new team members and managed client communication and escalations.

EDUCATION

B.E. in Electronics and Communication Engineering (2016)
Sreenivasa Institute of Technology and Management Studies
